Unica[®]
Homeware & Beyond

Our homeware standards of safety are incorruptible

1 Freezer safe

Our products will not crack or break when kept in the freezer due to the content freezing.

3 Certified Virgin Polymer

Made using Virgin plastic that is globally recognized as a safe, lightweight and flexible material that is also 100% recyclable. There is no impurity that comes from recycling or blending and this adds to the safety quotient.

5 BPA free

BPA is an industrial chemical that is found in polycarbonate plastics, often used in plastic water bottles. BPA can sometimes leech into liquids which can have an adverse effect on you & your children's health.

2

Air resistant

Resists air from getting into the container, thereby keeping the content fresh & crisp.

4

Food safe

Made from certified thermoplastics which are scientifically proven to be safe for storing food and used the world over.

6

Microwave safe

Plastic tends to warp or melt in the microwave in a single use. Our products are 100% microwave safe.

7

Dishwasher safe

Our products can withstand the intense heat in a dishwasher environment and are top rack safe and do not crack under repeated cycles.
